

# COVID-19 General Measures (Extract)

## Aiming to Suppress the “4<sup>th</sup> Wave”

Published on June 18<sup>th</sup> 2021  
COVID-19 Infection Measures Headquarters  
Gifu Prefectural Government  
Implementation Period: June 21<sup>st</sup> 2021 to July 4<sup>th</sup> 2021

### Measure 1 Thorough Infection Prevention

#### Measures (Continuation)

First, “continue to thoroughly implement basic infection prevention measures (the wearing of masks, hand hygiene, avoidance of the three Cs and management of your physical condition).”

These same measures can help prevent infection of new variants as well. Even those who are vaccinated should continue to observe these measures, as vaccinations are not 100% effective.

#### (1) To all Prefectural Residents

##### ① Consider carefully any non-urgent and unnecessary outings and travel

- Consider carefully the necessity and safety of outings and choose non-crowded places and times.
- Consider carefully any plans for travel or return to your home region. In particular, as far as possible avoid non-urgent and unnecessary travel to and from regions such as Aichi Prefecture which have been designated as districts implementing special measures to prevent further spread of infection or where states of emergency have been declared.

##### ② Avoid the risk of infection through moisture droplet spread

- For eating & drinking, even in the home avoid large groups and keep it to a short time. Do not drink heavily or speak loudly, and wear masks when you talk. Be cautious even with your family or partner.
- Avoid barbecues with large numbers of people other than those you live with, even if it is outdoors or in your garden etc. as it creates the risk of long eating times and heavy drinking.

- If eating outside, use business branches which are displaying “Measures Against COVID-19 In-effect Stickers”. Avoid use of businesses which are not thoroughly implementing infection prevention measures.
- Make sure to wear a mask when doing karaoke, because of the high risk of infection through moisture droplet spread. Avoid karaoke if you cannot do this.

## (2) Thorough implementation of infection prevention measures by eating & drinking businesses and all other businesses

### ① Demand for a shortening of operating hours by eating & drinking businesses etc.

From June 21<sup>st</sup> (Monday) to July 4<sup>th</sup> (Sunday)

Targeted Businesses	Eating & drinking businesses <sup>※1</sup> and entertainment facilities etc. <sup>※2</sup> (Excluding delivery & takeaway services) ※1 Eating & drinking businesses (including izakayas), cafes etc. ※2 Bars, karaoke boxes etc., which have received operating permission in accordance with the Food Sanitation Law.
Target Areas	Gifu, Ogaki, Mino-kamo, Kakamigahara, Kani & Mizuho Cities
Demand Contents	Shortening of operating hours to from 5:00AM to 21:00. • Serving of alcohol to from 11:00AM to 20:00.
Compliance Funds	• Compliance fund payments will only be made to those complying for the entire period. • Payment per business branch per day: Small & Medium Businesses: 25,000 yen to 75,000 yen Large Businesses: Reduction in daily sales x 0.4 (Upper limit of 200,000 yen per day, or daily sales x 0.3 – whichever is smaller. Small & Medium Businesses can also choose this option.)

### ② Demand for business branches with karaoke facilities to implement droplet spread infection prevention measures (wearing of masks, partitions). If this is not possible, demand for restraint from use of the facilities.
